The zenoLINK Connection

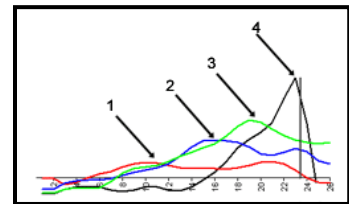

Keeping you educated & informed

What a start to the year! It seems like the initial launch of our newsletter back in December was just yesterday. Instead here we are in June and almost half way through the year. We have been working at capacity and fortunately see it only getting busier as the year progresses.

In this issue, you will see a snapshot of just some of the highlights that have happened since March with many more exciting stories to come. Player performance is increasing. Customers are using **zenoLINK™** more effectively. Our web presence has taken us in some new directions, and we have built some new relationships. These will produce some interesting opportunities for us to improve the services and products that we deliver to you later in 2009. So take a few minutes, and get caught up on what is happening with us.

The Welch-e Technologies Team

Volume 2, Issue 3, June 2009

"The bottom line is...
we measure human motion and
quantify performance and
injury potential."

zenoLINK™ CUSTOMER NEWS

Crystal Mountain Resort Jr. Program

Brad Dean, Director of Golf and Adam Schriber, Director of Jr. Golf Instruction and Development at Crystal Mountain Resort, have integrated **zenoLINK™** into their Junior Elite Program with each of their students. They firmly believe that Jr. Golfers need to be trained like athletes and are relying **zenoLINK™** to help them take the guess work out of how each specific golfer needs to be trained.

Crystal Mountain is currently offering week long and weekend sessions. If you are OR are a parent of an aspiring Jr. Golfer, check them out at:

<http://crystallmountain.com/golf/golfschooljuniorelite>

Congratulations to some of our zenoPRO™ Boot Camp Alumni

Current NGA Hooters Tour player Ryan Brehm recently won the Michigan Open and recent Duke University graduate Clark Klaasen qualified for the 2009 US Open. Brian Spitz is playing in the 42nd Annual Club Professional National Championship at Twin Warriors Golf Club in Santa Ana Pueblo, N.M.

Ever been to the Turks & Caicos Islands?

Welch-e Technologies is teaming up with Corrado Cultrera to bring our expertise in biomechanics, physical fitness, nutrition and rehabilitation to GObeachfest in the Turks & Caicos Islands.. Athletes of all levels can come down to kick back and relax OR take the opportunity to participate in daily activities taught by the world's top pro athletes and celebrity trainers throughout the day. Focus on your sport or "cross-sport" and learn another skill from one of our myriad other sport-specific programs. Evening entertainment will include nightly theme parties and world class entertainment. **Watch for more information in the weeks to come!**

UPCOMING EVENTS

zenoDIRECT™ Player Training Sessions

Welch-e Technologies Australia

We have been busy down under ramping up the office, training athletes, new product development and getting some serious results on the golf course. We're happy to have started working with professional golfer Chris Gaunt who is from Australia as a new zenoPRO™. Scotty tells us that Chris will be heading over to qualify for the British Open soon so we'll be sure to be watching the leader board.

Congratulations to Scott Hanson for his win at the Hidden Valley Open!

It seems that our friends down under love their sports and we're super pumped to be able to provide **zenoLINK™** now to other enthusiastic athletes in cycling, running, rowing and tennis. We're even working towards Australian Rules Football and cricket for use in 2010.

Welcome to our newest customer RSTA Golf located in Sweden who is just coming on line with **zenoLINK™**. If you'd like to know if there is a zenoLINK Center near you, please call our office at (607) 786-9262.

MARKET NEWS

Do you Blog, Tweet or watch YouTube?

Welch-e Technologies is doing all three these days. We've recently added a new blog, Twitter updates and YouTube videos to our internet presence. We want to help communicate what is going on with the **zenoLINK™** and the company as it is happening so **CLICK** on either of these icons and get connected or visit our website at www.zenolink.com.

EMPLOYMENT CENTER

Interested in career opportunities with Welch-e Technologies? If you have experience in biomechanics, biomedical engineering, 3-D motion analysis or simply want to join a growing company and make a career change, we want to hear from you. Send us your resume at zenoLINK@welch-e.com.

CURRENT JOB OPENINGS:

Sr. Biomechanist / Sr. Biomedical Engineer

Location: Endicott, NY

Welch-e Technologies is seeking a highly motivated individual to become part of a company dedicated to advancing technology focused on software applications measuring functional biomechanics. This is an excellent opportunity for an experienced Sr. Biomechanist that is willing to expand their career, learn, accept the challenges associated with a small company and become the technical lead for our zenoLINK product suite. The Sr. Biomechanist will have direct input on the existing zenoLINK product suite, as well as the next generation tool sets. For the right candidate, you can be actively involved with a company that has been leading the way in functional biomechanics in athletics and delivering a truly cutting edge technology to the marketplace for nearly 15 years. This position reports to our CEO and is your chance to be mentored by a very well respected biomechanics expert as we continue to expand our products into broader market segments.

For a complete job description or to apply for this position, please contact us zenoLINK@welch-e.com.
